

Brian McClintock

Director

PFM Financial Advisors LLC

Brian McClintock is a director focusing on State Revolving Funds and Federal Infrastructure programs. Brian joined PFM after 30 years with New York State Environmental Facilities Corporation (EFC), most recently serving as EFC's Director of Public Finance. Brian played an integral role in developing EFC's current financing indentures, financial models and investment strategies. Brian worked on over 100 transactions for EFC totaling approximately \$20 billion. These transactions ranged from standalone transactions for the largest water and sewer authority in the country to pooled financings with over 100 different borrowers.

To support these transactions Brian developed and maintained extensive customized structuring models to accommodate the individual needs of the municipalities of New York State. In addition to financing models, Brian also developed models to optimize program capacity, measure default tolerance, maximize investments and track both short term and long-term liquidity.

Prior to starting at EFC, Brian's worked at Fidelity investments in the Capital Markets group.
